EXPERIENCE

Software Developer Intern

May. 2026 – Aug. 2026

Google

Kitchener, ON

- Incoming Summer 2026

Software Developer Intern | Kotlin, C#, CosmosDB, Azure, Terraform, Pulsar

May 2025 – May 2026

Intelcom — Dragonfly

Montreal, QC

- Developed and deployed 2 Android applications in Kotlin across 20+ sorting stations for real-time package scanning and tracking, improving workflow visibility and throughput by 98%.
- Collaborated to design the architecture of a sorting solution and implemented 2 microservices in C# to increase sorting productivity.

Software Developer Intern | Playwright, TypeScript, React Native

Sept. 2024 – Dec. 2024

X20 Media

Montreal, QC

- Reduced QA process duration by 80% by developing end-to-end tests using Playwright and TypeScript for the CI/CD pipeline.
- Developed a Slack bot to automate release notes retrieval from Jira and GitLab, reducing manual effort by 90%.
- Converted a React web application to a React Native mobile application for cross-platform compatibility.

Teaching Assistant | LaTeX, SQL, Discrete Mathematics

Sept. 2025 – Present

Concordia University

Montreal, QC

- Graded assignments, quizzes, and exams, providing detailed feedback to students.
- Assisted in teaching discrete math, LaTeX, relational databases, and formal methods concepts.

PROJECTS

Real Estate Management Application | Java, Spring Boot, React, Docker, PostgreSQL, Pulsar

- Developed a property management platform with dynamic data dashboard using Spring Boot and React.
- Integrated Apache Pulsar for event-driven communication for tenant and lease processing.

AquaScan: AI-Powered Fishing Assistant | PolyHacks 2025 Winner

- Built a React Native mobile app to have sustainable fishing by identifying fish species and verifying regulations.
- Integrated AI image recognition model for accurate fish species detection.
- Web-scraped government websites to ensure regulation compliance.

JACHacks 2024 Winner: Best AI Project for Education | TensorFlow, Pandas, Python

- Developed AI tools including PowerPoint hand-gesture control, secure CAPTCHA, and drawing tool using TensorFlow.
- Applied AI for cybersecurity and educational purposes, training models on gesture recognition.

EDUCATION

Concordia University

Montreal, QC

Bachelor of Engineering in Software Engineering (Co-op), GPA: 3.64

2023 – 2027

- Relevant Courses: Data Structures and Algorithms, Databases, Web Development, Operating Systems

Docker for the Absolute Beginner - Hands On – DevOps (Udemy, 2024)

Spring Boot 3, Spring Framework 6 (Udemy, In progress)

TECHNICAL SKILLS

Operating Systems: Windows, Ubuntu Linux, Android

Applications & Tools: Azure DevOps, GitHub, Git, GitLab, Docker, Jira, Confluence

Programming: Java, JavaScript, TypeScript, Python, React, Node.js, HTML, CSS, Kotlin, MySQL, MongoDB, Spring Boot

Methodologies: Agile and Scrum, CI/CD

Languages: French, English, Spanish, Chinese Teochew
