EXPERIENCE

Software Developer Intern

Sept. 2026 – Dec. 2026

IBM Consulting

Montreal, QC

- Fall 2026

Software Developer Intern | Python, Colab

May 2026 – Jul. 2026

Google — Google Workspace AI Safety Team

Waterloo, ON

- Built a data pipeline using Apache Beam (Flume) to enable bulk inference at scale, accelerating Gemini integration across Workspace products and reducing processing time by 85%
- Designed and implemented a synthetic data generation pipeline to produce false-positive examples, improving the precision of a model trained to detect indirect prompt injection (IPI) attacks

Software Developer Intern | Kotlin, C#, CosmosDB, Azure, Terraform, Pulsar

May 2025 – May 2026

Intelcom — Dragonfly

Montreal, QC

- Developed and deployed 2 Android applications in Kotlin across 20+ sorting stations for real-time package scanning and tracking, improving workflow visibility and throughput by 98%.
- Collaborated to design the architecture of a sorting solution and implemented 2 microservices in C# to increase sorting productivity.

Software Developer Intern | Playwright, TypeScript, React Native

Sept. 2024 – Dec. 2024

X20 Media

Montreal, QC

- Reduced QA process duration by 80% by developing end-to-end tests using Playwright and TypeScript for the CI/CD pipeline.
- Developed a Slack bot to automate release notes retrieval from Jira and GitLab, reducing manual effort by 90%.
- Converted a React web application to a React Native mobile application for cross-platform compatibility.

Teaching Assistant | LaTeX, SQL, Discrete Mathematics

Sept. 2025 – Apr. 2026

Concordia University

Montreal, QC

- Graded assignments, quizzes, and exams, providing detailed feedback to students.
- Assisted in teaching discrete math, LaTeX, relational databases, and formal methods concepts.

PROJECTS

AquaScan: AI-Powered Fishing Assistant | PolyHacks 2025 Winner

- Built a React Native mobile app to have sustainable fishing by identifying fish species and verifying regulations.
- Integrated AI image recognition model for accurate fish species detection.
- Web-scraped government websites to ensure regulation compliance.

JACHacks 2024 Winner: Best AI Project for Education | TensorFlow, Pandas, Python

- Developed AI tools including PowerPoint hand-gesture control, secure CAPTCHA, and drawing tool using TensorFlow.
- Applied AI for cybersecurity and educational purposes, training models on gesture recognition.

EDUCATION

Concordia University

Montreal, QC

Bachelor of Engineering in Software Engineering (Co-op), GPA: 3.62

2023 – 2027

TECHNICAL SKILLS

Programming & Frameworks: Java, JavaScript, TypeScript, Python, Kotlin, React, Node.js, Spring Boot, HTML

Databases & APIs: MySQL, MongoDB, REST APIs

AI & LLM Technologies: Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG)

Development Tools: Claude Code, Codex, Azure, GitHub, Git, GitLab, Docker, Jira, Confluence, Linux

Methodologies: Agile, Scrum, CI/CD, SDLC

Testing & QA: Unit Testing, Integration Testing, End-to-End (E2E) Testing, Test Automation, Playwright

Languages: French, English, Spanish, Chinese Teochew
